

StoredIQ Assessment Services provide unprecedented visibility into the unstructured data across the enterprise for organizations who consider implementing a proactive information management strategy. This invaluable service quickly gives organizations critical understanding of their business content to make more informed decisions about the management, retention, and disposition of their data. The StoredIQ Assessment Services can discover and assess unstructured and semi-structured data across the industry’s broadest range of data sources, including storage, email, archiving, content, document and record management systems.

## Assessment Service Categories

StoredIQ provides various types of Assessment Services specific to an organization’s needs:

- Data Topology Assessment
- Litigation Preparedness Assessment
- Records Management & Retention Assessment
- PII Risk & Compliance Assessment (PCI, GLBA, HIPAA, etc.)
- Custom Assessment Services

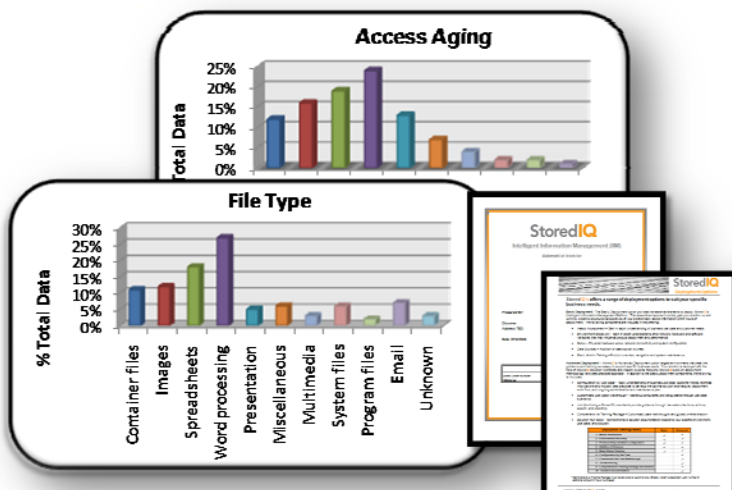

## Assessment Service Activities and Deliverables

- **Setup** – Provide, install and configure the StoredIQ appliance
